Heredity

Volume 59 Number 1 August 1987

Max King
Chromosomal rearrangements, speciation and the theoretical approach 1

D. E. Glover and S. C. H. Barrett
Genetic variation in continental and island populations of *Eichhornia paniculata* (Pontederiaceae) 7

Ranajit Chakraborty
Biochemical heterozygosity and phenotypic variability of polygenic traits 19

Chris Gliddon, Eric Belhassen and Pierre-Henri Gouyon
Genetic neighbourhoods in plants with diverse systems of mating and different patterns of growth 29

R. M. D. Koebner and K. W. Shepherd
Allosyndetic recombination between a chromosome of *Aegilops umbellulata* and wheat chromosomes 33

Samuel W. Skinner
Paternal transmission of an extrachromosomal factor in a wasp: evolutionary implications 47

Bengt Gunnarsson
Melanism in the spider *Pityohyphantes phrygianus* (C. L. Koch): the genetics and the occurrence of different colour phenotypes in a natural population 55

B. C. Lamb
Tests of double-strand gap repair as a major source of meiotic gene conversion in fungi 63

J. Steven de Belle and Marla B. Sokolowski
Heredity of rover/sitter: Alternative foraging strategies of *Drosophila melanogaster* larvae 73

P. Arana, J. L. Santos and N. Henriques-Gil
Interference relationships in grasshopper reciprocal translocation heterozygotes 85

W. R. Knibb, J. G. Oakeshott and S. R. Wilson
Chromosome inversion polymorphisms in *Drosophila melanogaster*. IV. Inversion and *Adh* allele frequency changes under selection for different development times 95

A. E. Melchinger
Expectation of means and variances of testcrosses produced from F_2 and backcross individuals and their selfed progenies 105

A. L. Mallet and E. Zouros
A comment on the use of Nass's contingency test for random association of alleles at different loci 117

R. M. Labani and T. T. Elkington
Nuclear DNA variation in the genus *Allium* L. (Liliaceae) 119

Taing Aung and G. M. Evans
Segregation of isoenzyme markers and meiotic pairing control genes in *Lolium* 129

A. S. Wilby and J. S. Parker
Population structure of hypervariable Y-chromosomes in *Rumex acetosa* 135

Book Reviews 145

Books Received 150

Genetical Society Abstracts (14 and 15 November 1986 Meeting) 151

Volume 59 Number 2 October 1987

Y. J. Fripp, A. R. Griffin and G. F. Moran
Variation in allele frequencies in the outcross pollen pool of *Eucalyptus regnans* F. Muell. throughout a flowering season 161

J. Gosálvez, J. L. Bella, C. López-Fernández and R. Mezzanotte
Correlation between constitutive heterochromatin and restriction enzyme resistant chromatin in *Arcyptera tornosi* (Orthoptera) 173

Timothy A. Mousseau and Derek A. Roff
Natural selection and the heritability of fitness components 181

Prem Narain and Ranajit Chakraborty
Genetic differentiation of quantitative characters between populations or species II: optimal selection in infinite populations 199

M. P. Zalucki, J. M. Hughes and P. A. Carter
Genetic variation in *Danaus plexippus* L.: Habitat selection or differences in activity times? 213

Seiichi Toki and Toshiaki Kameya
Production of a chlorophyll deficient streptomycin resistant mutant of *Nicotiana tabacum* for somatic hybridisation studies 223

A. González and J. L. Ménsua
Genetic polymorphism and high detrimental load in natural populations of *Drosophila melanogaster* from cellar and vineyard 227

M. I. Cano, G. H. Jones and J. L. Santos
Sex differences in chiasma frequency and distribution in natural populations of *Eyprepocnemis plorans* containing *B*-chromosomes 237

O. Daïnou, M. L. Cariou, J. R. David and D. Hickey
Amylase gene duplication: an ancestral trait in the *Drosophila melanogaster* species subgroup 245

P. Nagesh Rao and K. S. Rai
Inter and intraspecific variation in nuclear DNA content in *Aedes* mosquitoes 253

Peter H. Cooke, Rollin C. Richmond and John G. Oakeshott
High resolution electrophoretic variation at the esterase-6 locus in a natural population of *Drosophila melanogaster* 259

Irène Till
Variability of expression of cyanogenesis in white clover (*Trifolium repens* L.) 265

Paul M. Brakefield and David R. Lees
Melanism in *Adalia* ladybirds and declining air pollution in Birmingham 273

D. R. Govindaraju and B. P. Dancik
Allozyme heterozygosity and homeostasis in germinating seeds of jack pine 279

P. D. S. Caligari, W. Powell and V. Goodall
The *in vitro* genetics of barley (*Hordeum vulgare* L.): Genetical analysis of immature embryo response to 2,4-dichlorophenoxyacetic acid 285

W. Powell and P. D. S. Caligari
The *in vitro* genetics of barley (*Hordeum vulgare* L.): detection and analysis of reciprocal differences for culture response to 2,4-dichlorophenoxyacetic acid 293

Book Reviews 300

Genetical Society Abstracts (7–9 April 1987 Meeting) 306

Volume 59 Number 3 December 1987

D. Dorninger and W. Timischl
Geometrical constraints on Bennett's predictions of chromosome order 321

M. Sun
Genetics of gynodioecy in Hawaiian *Bidens* (Asteraceae) 327

Jonathan Shaw, Thomas R. Meagher and Pamela Harley
Electrophoretic evidence of reproductive isolation between two varieties of the moss, *Climacium americanum* 337

J. B. Searle and P. J. Wilkinson
Karyotypic variation in the common shrew (*Sorex araneus*) in Britain – a "Celtic Fringe" 345

Andrew M. Thomson and Ruth Ingram
The control of chiasma formation in colchicine treated meiocytes of *Senecio squalidus* 353

D. J. Colgan
Deficits of heterozygotes in relation to selective interactions between loci in the mussels *Brachidontes rostratus* and *Xenostrobus pulex* 355

John Jaenike
Genetics of oviposition-site preference in *Drosophila tripunctata* 363

J. A. McKenzie and A. Y. Game
Diazinon resistance in *Lucilia cuprina*; mapping of a fitness modifier 371

Emily A. Gileva
Meiotic drive in the sex chromosome system of the varying lemming, *Dicrostonyx torquatus Pall.* (*Rodentia, Microtinae*) 383

Denson Kelly McLain
Heritability of size, a sexually selected character, and the response to sexual selection in a natural population of the southern green stink bug, *Nezara viridula* (Hemiptera: Pentatomidae) 391

Hiroshi Endoh
Genetic control of chemical induction of conjugation in *Paramecium bursaria* 397

E. Guillén, F. J. S. Sánchez-Cañete, J. J. Garrido, G. Dorado and M. Barbancho
Intergenotypic effect of isopropanol ingestion in the further detoxification of ethanol and isopropanol in *Drosophila melanogaster* 405

J. I. Weller
Mapping and analysis of quantitative trait loci in *Lycopersicon* (tomato) with the aid of genetic markers using approximate maximum likelihood methods 413

R. A. Ennos and K. W. Swales
Estimation of the mating system in a fungal pathogen *Crumenulopsis sororia* (Karst.) Groves using isozyme markers 423

Eric M. Hallerman, Jacques S. Beckmann and Morris Soller
Statistical power of the North Carolina Experiment III design in determining the likelihood of success of pedigree breeding programs in selfing plants 431

J. Navas-Castillo, J. Cabrero and J. P. M. Camacho
Paracentric inversion in the grasshopper *Oedipoda charpentieri* 441

Alan J. A. Stewart and David R. Lees
Genetic control of colour polymorphism in spittlebugs (*Philaenus spumarius*) differs between isolated populations 445

Wade Hazel, Ruth Brandt and Todd Grantham
Genetic variability and phenotypic plasticity in pupal colour and its adaptive significance in the swallowtail butterfly *Papilio polyxenes* 449

G. M. Hewitt, R. A. Nichols and N. H. Barton
Homogamy in a hybrid zone in the alpine grasshopper *Podisma pedestris* 457

David A. S. Smith and Ian J. Gordon
The genetics of the butterfly *Hypolimnas misippus* (L.): The classification of phenotypes and the inheritance of forms *misippus* and *inaria* 467
